

TecLines TNT004

Wall mount USB tablet power supply 30W output

Description

The TecLines TNT004 is a sleek flush-mounted power supply specifically designed for tablets with a USB port, delivering an output power of 2A. It is discreetly installed within a mounting box positioned behind the tablet, allowing for uninterrupted charging even when the device is enclosed within a protective housing. Featuring a USB-C connection, this power supply unit is suitable for both wall mounting and integration into furniture. It seamlessly integrates with TabLines TWE and TSG tablet enclosures, presenting a tidy solution devoid of visible cables. The TecLines Charger, boasting a 30-watt output, can be easily fitted into flush-mounted boxes with a minimum depth of 42 mm.

Please note: Only the TecLines charger is included, for a complete mount you will need a TabLines enclosure (TWE or TSG) and a charging cable. TecLines – Intelligent technology by creative minds.
